

Field Setup and Take Down

Nets and flags for Place to Play are in the lock box, all coaches should have a key to the lock box

1. There are plastic ties in the lock box use these for securing the nets (try to avoid using duct tape)
2. Fields 1 is the north field, Field 2 is the middle field, Field 3 is used by SRYSL Clubs (south Field) SRU can only use Field 3 if the game is scheduled there otherwise you can use for practice but never a game even when there is a problem with Field 1 & 2.
3. In case of problems with Sprinklers etc. or if the gate is locked contact Patty Manton (526-5254) or Laurie Hurst (483-2128) be sure and check the gate as they dummy lock it most of the time.
4. Nets and flags need to be put back in the lock box by the nets down team (coaches have a key) make sure that you press in the locks to lock up the box when finished.
5. Teams taking nets down are responsible to make sure all garbage is picked up even if it was from the game before.

Nets at Bellevue are at P2P in the Lock Box – All coaches have keys to the lock box

1. Nets and flags must be picked up the day of the game by the team with the 1st game of the day at Bellevue.
2. Nets and flags must be returned to P2P immediately after the final game, the next day is to late.
3. **The nets down team must clean up all garbage then dump the garbage cans and reline them with a new garbage bags, Managers can pick up garbage bags from the office. Bellevue is very picky about garbage I get complaints every year so please be sure to clean up all garbage and dump the garbage cans at the end of each day, no exceptions.**

If you have any trouble finding nets please contact Laurie Hurst at 483-2128
